Continuation of 5. does NOT place the application in condition for allowance because:

The new arguments require further consideration:

The prior art of record does not restrict varying transmission metrics based on channel noise exclusively to metrics such as packet lengths as alleged. Refer to final office action at paras. 3-4.

Newly added limitations of instant claims prior to final office action were addressed.

Claim 44 needs to end in a period. Objection to "operable" is dropped.

Amendment is entered for it partially corrects informalities raised in the final office action.
